Mountain Weather Forecast

Peak District National Park

Forecast valid from 00:00 on Thursday 07 Sep 2023 until 23:59 on Friday 08 Sep 2023

Forecast Issued on Wednesday 06 Sep 2023 at 16:23

Confidence: Very high confidence in warm or hot conditions continuing for the remainder of the week and into the weekend. Moderate for details of morning mist, fog and low cloud. Much lower for the timings and details of any thundery showers later in the week into the weekend.

Headline for Thursday 07 Sep 2023: Early low cloud, mist and fog soon clearing to leave another fine day, with sunny spells. Probably more cloud around compared to Wednesday. Feeling warm and humid too.

Forecast for Thursday 07 Sep 2023

Weather: Low cloud and fog may drift inland off the North Sea overnight and early morning, although should readily lift and clear after sunrise to leave a fine day, with sunny spells. Feeling rather warm and humid too. Any low cloud never too far away from North Sea coastal areas, which may drift back inland after dark.

Chance of cloud-free hill tops above 600m: 40% at first, increasing to mostly 100% from mid-morning.

Low cloud and visibility: Cloud bases lowering to 200-300m overnight and early morning, lifting to above the summits by mid-morning. Visibility will be locally poor in low cloud and fog first thing, improving to become mostly good or very good by mid-morning.

Forecast for Friday 08 Sep 2023

Weather: Low cloud, mist and fog will drift back in from off the North Sea overnight, which will readily burn back to coastal areas by mid-morning. Otherwise, another fine and dry day, with sunny spells. Feeling very warm and humid too. Low cloud once again drifting inland from the North Sea after dark.

Maximum wind: East southeasterly 10-15mph, becoming west southwesterly at 5-10mph by midday.

Chance of cloud-free hill tops above 600m: 60% first thing, increasing to mostly 100% by mid-morning.

Low cloud and visibility: Cloud bases down to 200-300m overnight and early morning, lifting to above the summits by mid-morning. Visibility will be locally poor in low cloud, before improving to be mostly good or very good by the afternoon, although probably a little hazy.

Temperature: **Valleys:** Plus 14 Celsius, becoming Plus 26 Celsius.
At 600m: Plus 17 Celsius, becoming Plus 22 Celsius.
Freezing level: Above the summits.
